## 1. Data Loading and Preprocessing

### 1.1 Edge Data

### 1.2 Surface Data

### 1.3 Calibration Wafer Data

### 1.4 Calibration Surface Data

### 1.5 Witness Surface Data

## 2. Surface Area Distribution Analysis

## 3. Edge Area Distribution Analysis

## 4. Calibration Wafer Analysis - Edge

## 5. Calibration Surface Analysis

## 6. Witness Surface Analysis

## 6. Edge Model Analysis

## 7. Straight Line Model (SLSM)

## 8. Error Stats

### Surface Analysis 9: Cumulative Particle Area Distribution with Error Bars

Orange: Starshade Surface, Green: Witness Surface

### Edge Analysis 9: Cumulative Particle Area Distribution with Error Bars

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

## 8. Trial Analysis

### 8.1 Trial 9

#### Surface Analysis 9: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Green: Witness Surface

#### Surface Analysis 9: Binned Particle Area Distribution over 0.1 square meters

Orange: Starshade Surface, Green: Witness Surface

### Edge Analysis 9: Cumulative Particle Area Distribution over 0.1 meter

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

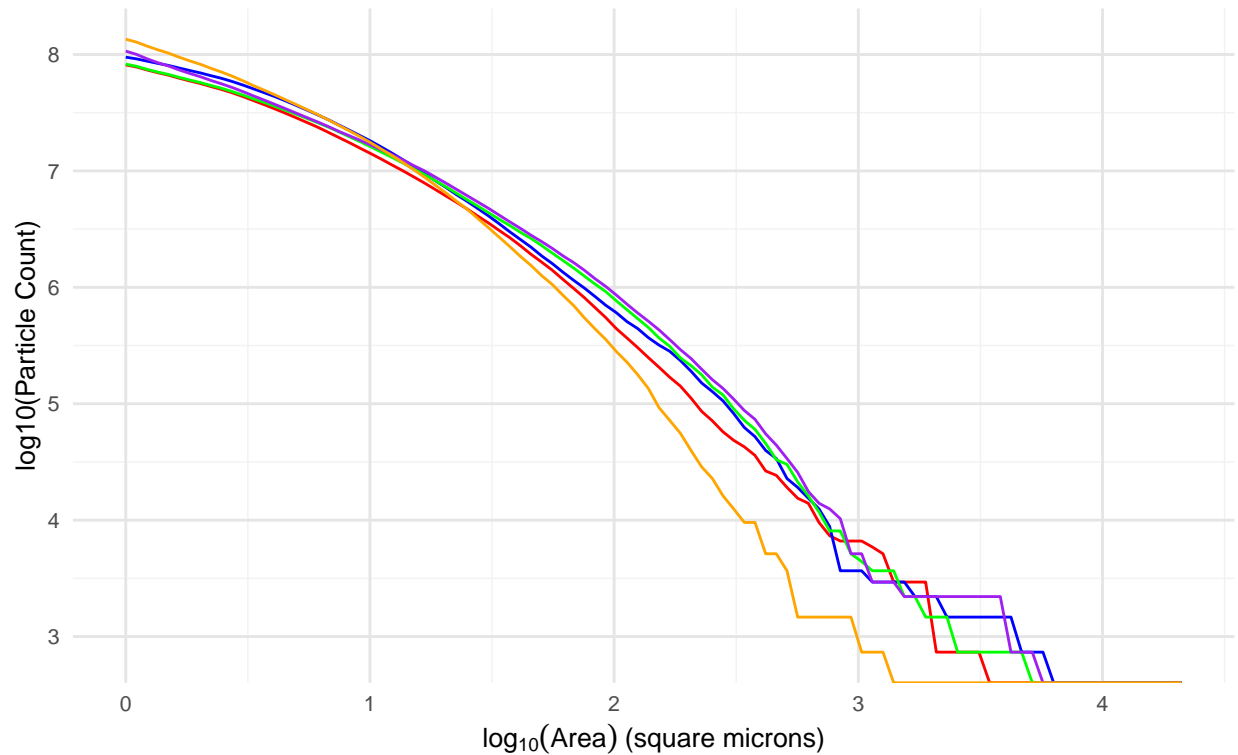

### Edge Analysis 9: Cumulative Particle Area Distribution over 0.1 meter

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

## face Analysis 9 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## rface Analysis 9 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## Surface Analysis 9 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

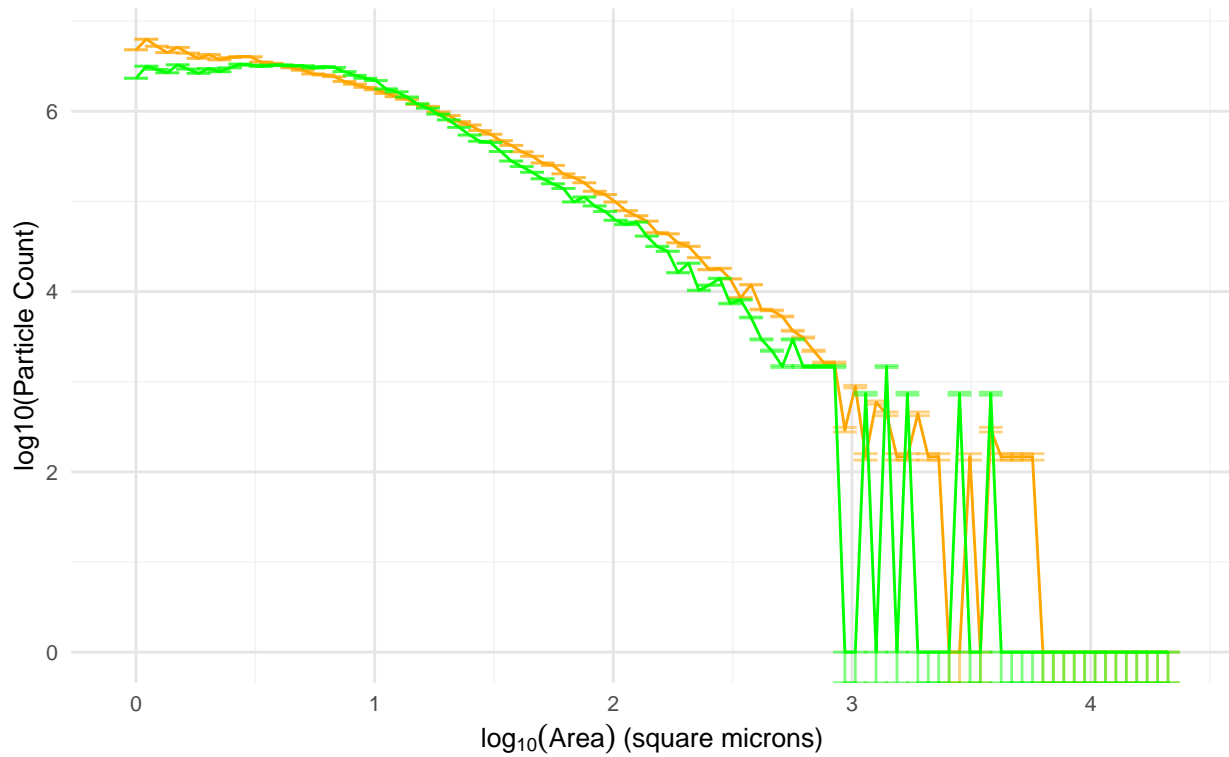

## Surface Analysis 9: Cumulative Particle Area Distribution over 0.1 square meter:

Orange: Starshade Surface, Green: Witness Surface

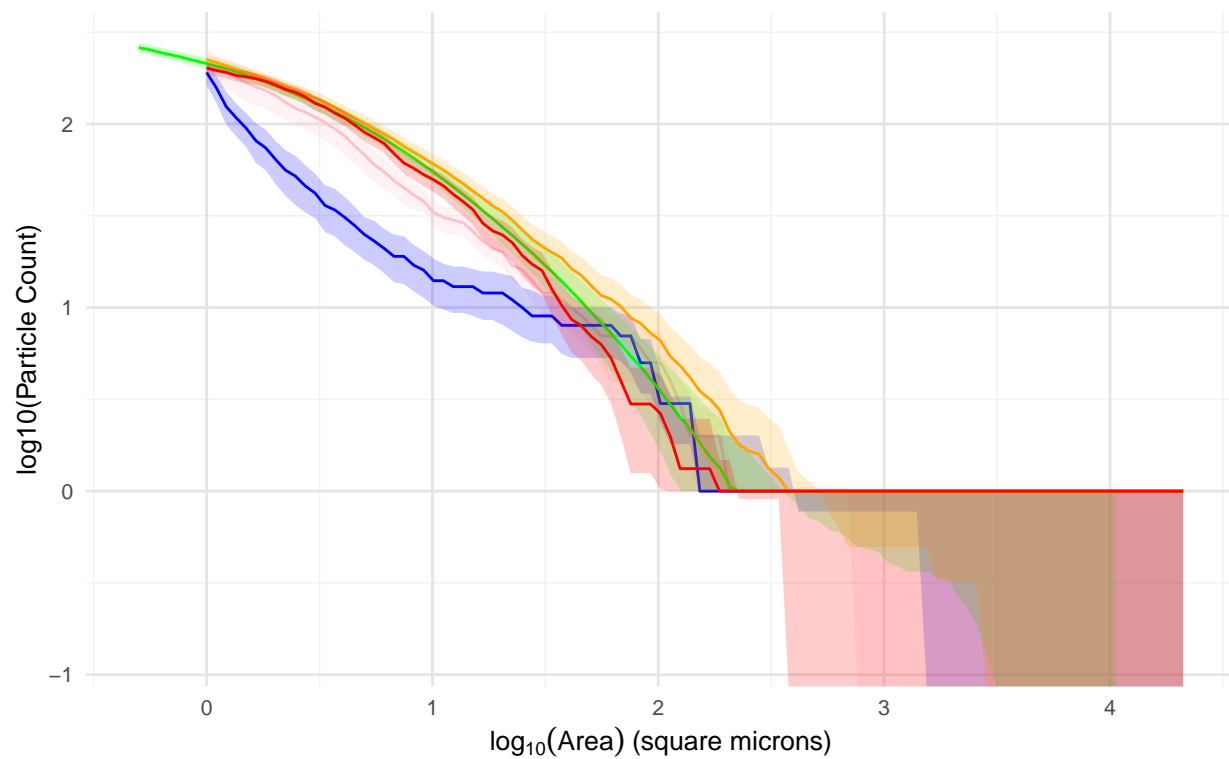

## Surface Analysis 9: Binned Particle Area Distribution over 0.1 square meters

Orange: Starshade Surface, Green: Witness Surface

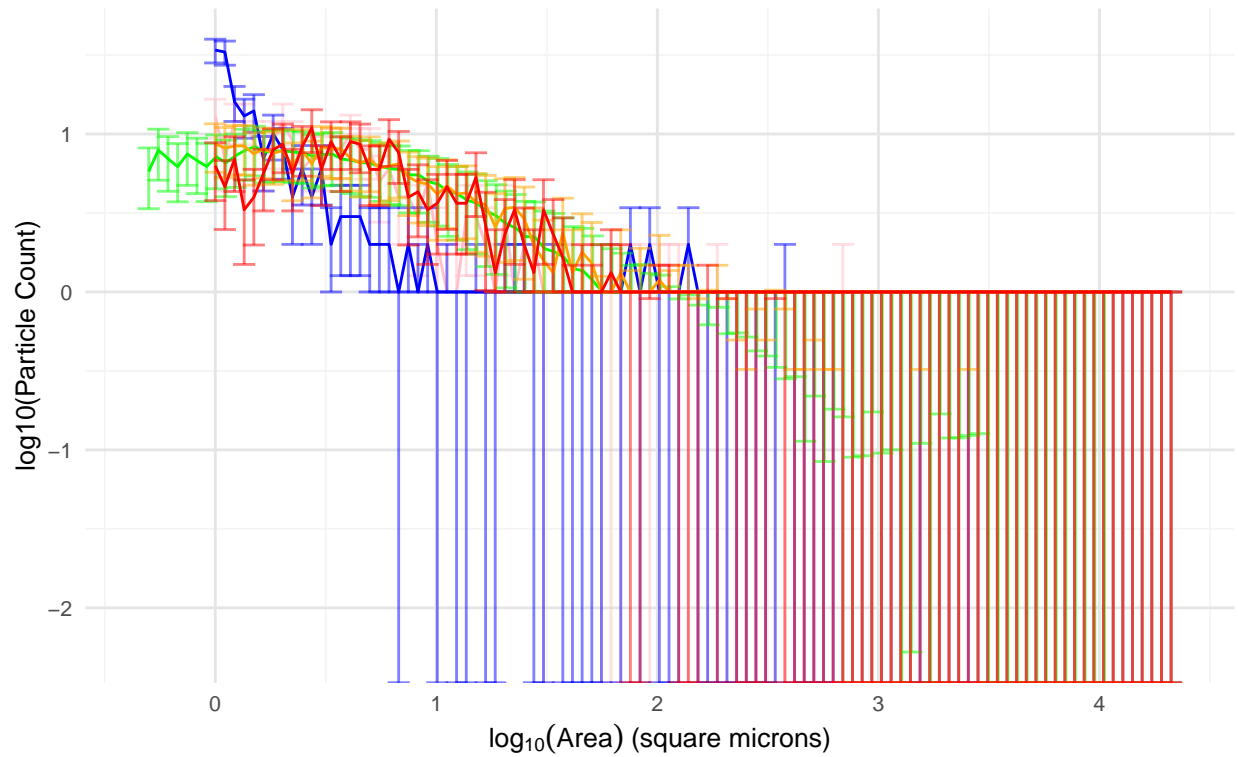

## Edge Analysis 9: Cumulative Particle Area Distribution over 0.1 meter

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

### Edge Analysis 9: Binned Particle Area Distribution over 0.1 meter

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

### Surface Analysis 9 – Samples: Cumulative Particle Area Distribution

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## 8.2 Trial 10

### Surface Analysis 10: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Green: Witness Surface

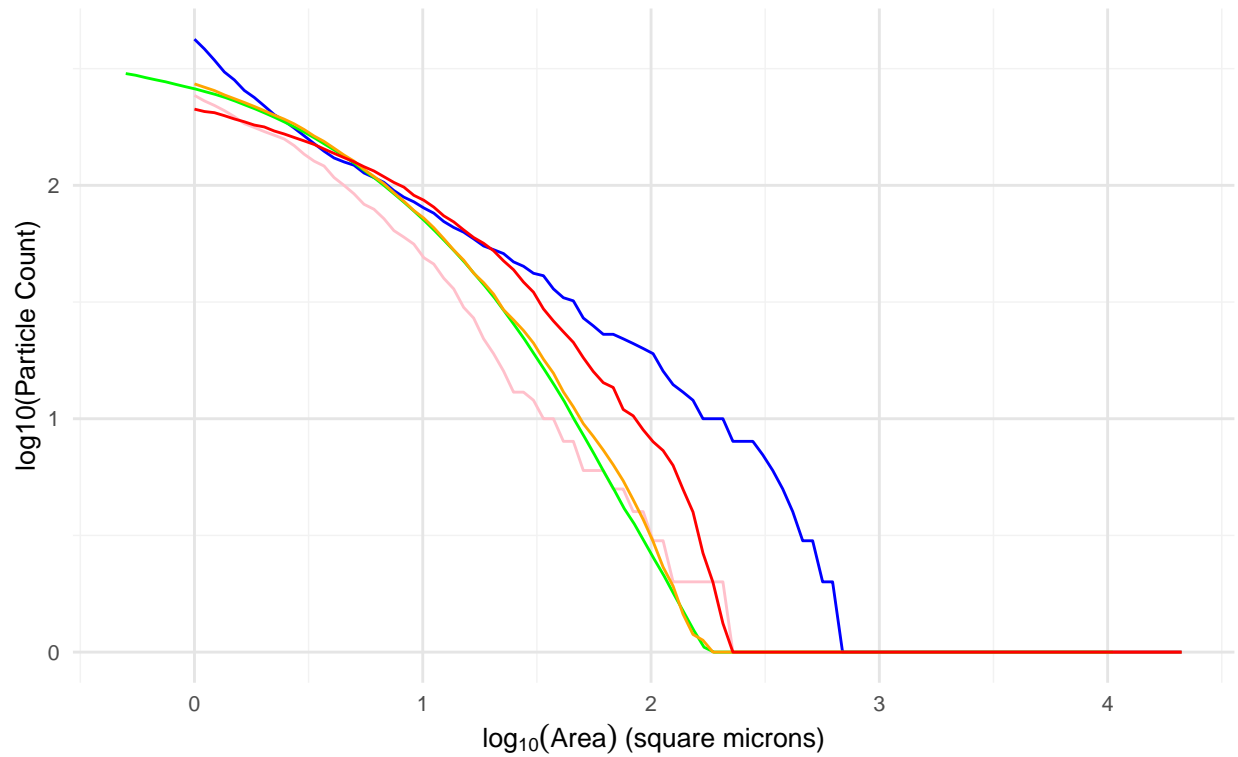

### Surface Analysis 10: Binned Particle Area Distribution over 0.1 square meters

Orange: Starshade Surface, Green: Witness Surface

### Edge Analysis 10: Cumulative Particle Area Distribution over 0.1 meter

: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

### Edge Analysis 10: Cumulative Particle Area Distribution over 0.1 meter

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

# face Analysis 10 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## 8.2 Trial 10 with Error Bars

### Surface Analysis 10: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Green: Witness Surface

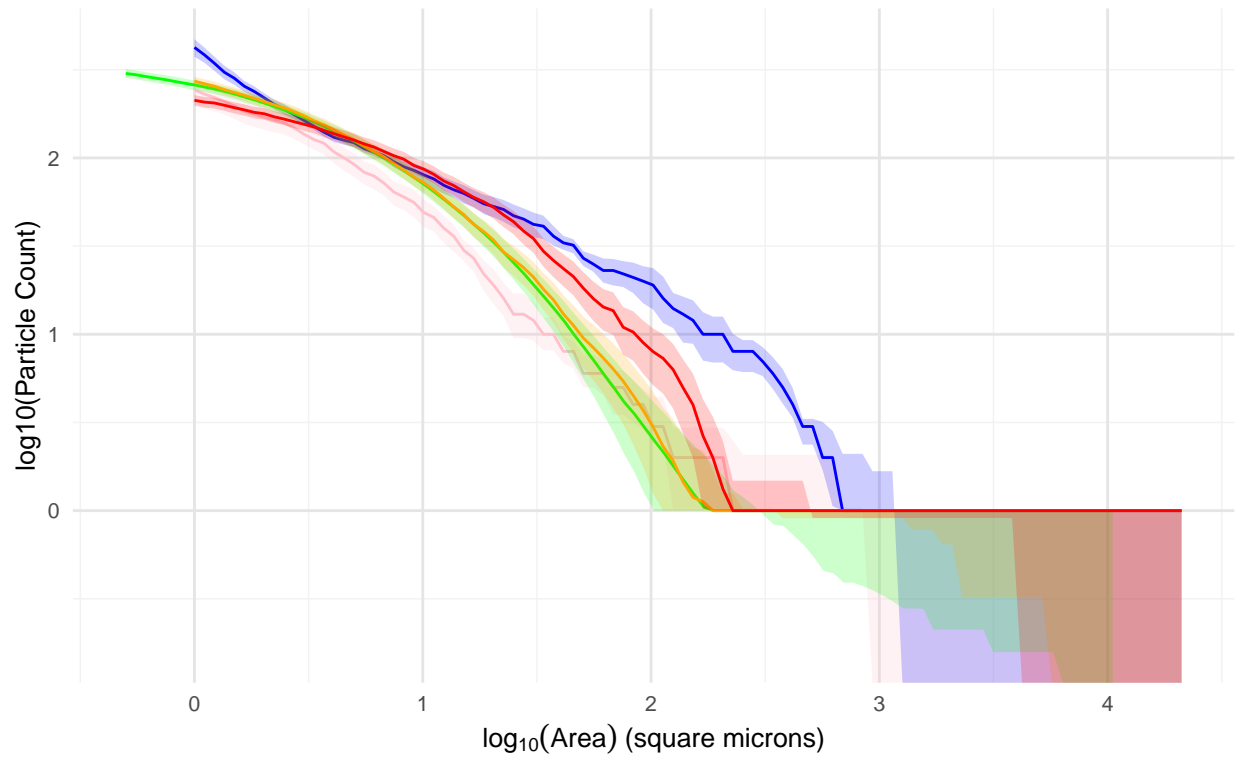

### Surface Analysis 10: Binned Particle Area Distribution over 0.1 square meters

Orange: Starshade Surface, Green: Witness Surface

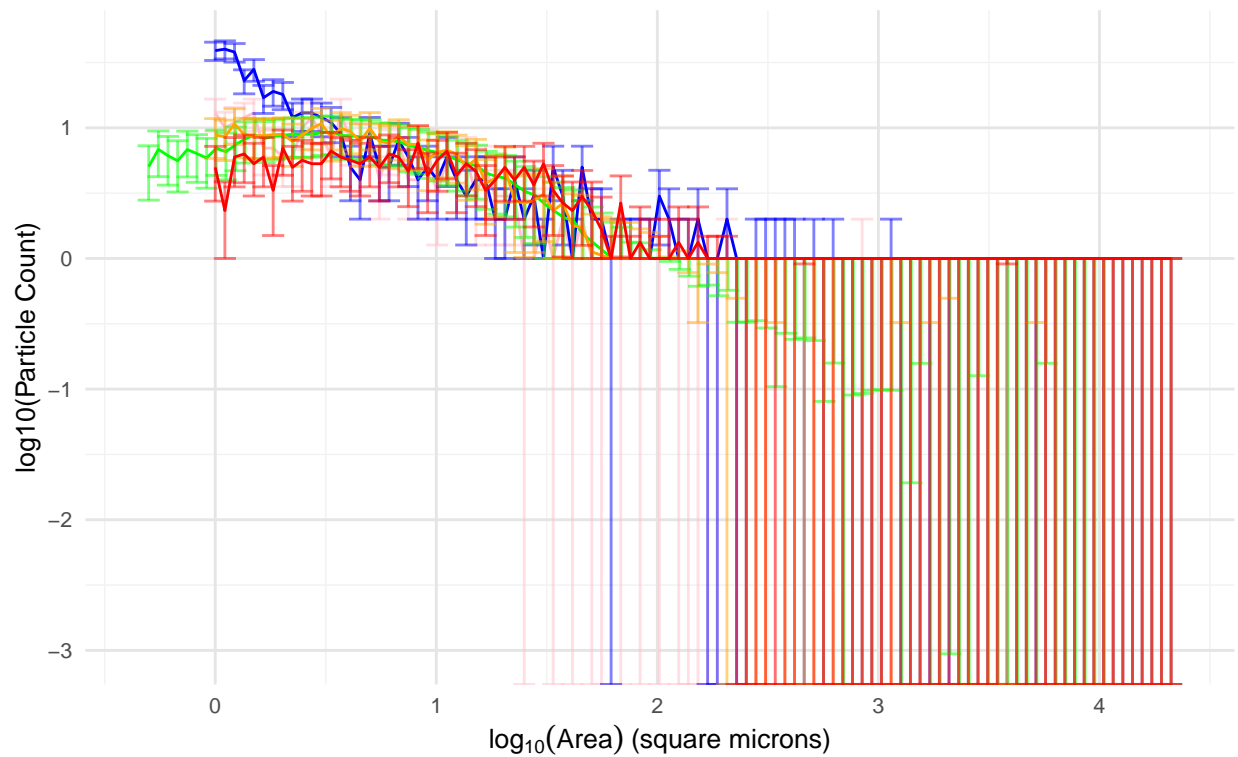

### Edge Analysis 10: Cumulative Particle Area Distribution over 0.1 meter

c: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

### Edge Analysis 10: Binned Particle Area Distribution over 0.1 meter

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

## Surface Analysis 10 – Samples: Cumulative Particle Area Distribution

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

### 8.3 Trial 11

#### Surface Analysis 11: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Green: Witness Surface

#### Surface Analysis 11: Binned Particle Area Distribution over 0.1 square meters

Orange: Starshade Surface, Green: Witness Surface

### Edge Analysis 11: Cumulative Particle Area Distribution over 0.1 meter

: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

### Edge Analysis 11: Cumulative Particle Area Distribution over 0.1 meter

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

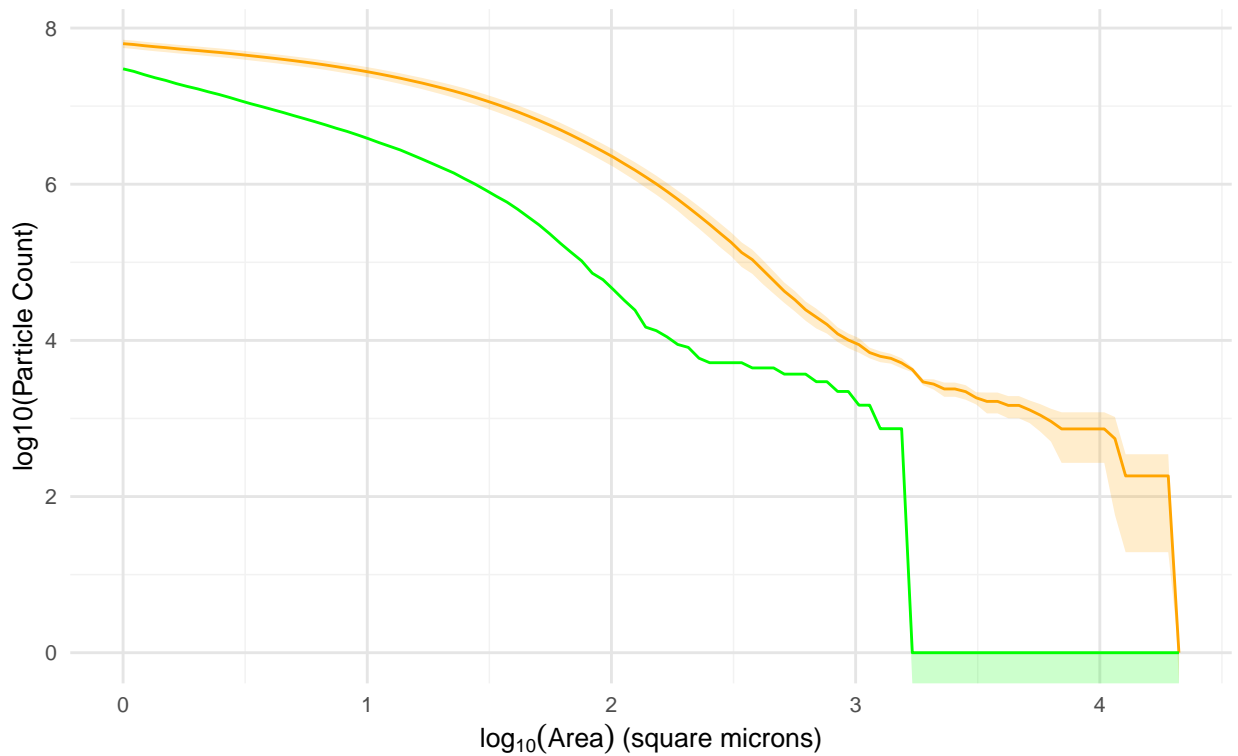

## face Analysis 11 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## Surface Analysis 11: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Green: Witness Surface

## Surface Analysis 11: Binned Particle Area Distribution over 0.1 square meters

Orange: Starshade Surface, Green: Witness Surface

## Edge Analysis 11: Cumulative Particle Area Distribution over 0.1 meter

Orange: Starshade Observed, Blue: Calibration Observed, Green: Model, Red: SLSM Starshade, Red: SLSM

### Edge Analysis 11: Binned Particle Area Distribution over 0.1 meter

k: Starshade Observed, Blue: Calibration Observed, Green: Model, Orange: SLSM Starshade, Red: SLSM

### Surface Analysis 11 – Samples: Cumulative Particle Area Distribution

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

#### 8.4 Trial 12

### Surface Analysis 12: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Purple: Calibration Surface, Green: Witness Surface

### Surface Analysis 12: Binned Particle Size Distribution over 0.1 square meters

Orange: Starshade Surface, Purple: Calibration Surface, Green: Witness Surface

## Edge Analysis 12: Cumulative Particle Area Distribution over 0.1 meter

Pink: Starshade Observed, Blue: Calibration Observed, Green: Model,  
Orange: SLSM Starshade, Purple: SLSM Calibration, Red: SLSM Witness

## Edge Analysis 12: Binned Particle Area Distribution over 0.1 meter

Pink: Starshade Observed, Blue: Calibration Observed, Green: Model,  
Orange: SLSM Starshade, Purple: SLSM Calibration, Red: SLSM Witness

## face Analysis 12 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## poration Analysis 12 – Sample: Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## Surface Analysis 12 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## Surface Analysis 9 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

### face Analysis 9 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

### Surface Analysis 12: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Purple: Calibration Surface, Green: Witness Surface

## Surface Analysis 12: Binned Particle Size Distribution over 0.1 square meters

Orange: Starshade Surface, Purple: Calibration Surface, Green: Witness Surface

## Edge Analysis 12: Cumulative Particle Area Distribution over 0.1 meter

Pink: Starshade Observed, Blue: Calibration Observed, Green: Model,  
Orange: SLSM Starshade, Purple: SLSM Calibration, Red: SLSM Witness

## Edge Analysis 12: Binned Particle Area Distribution over 0.1 meter

Pink: Starshade Observed, Blue: Calibration Observed, Green: Model,  
Orange: SLSM Starshade, Purple: SLSM Calibration, Red: SLSM Witness

## Surface Analysis 12 – Samples: Cumulative Particle Area Distribution

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## Calibration Analysis 12 – Sample: Cumulative Particle Area Distribution

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

## All Surface Analysis 12 – Samples: Cumulative Particle Area Distribution

Solid: Starshade Samples, Dotted: Calibration Samples, Dashed: Witness Sample  
Colors: Red (1), Blue (2), Green (3), Purple (4), Orange (5)

## Edge Analysis 12 – Samples: Cumulative Particle Area Distribution

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

$\log_{10}(\text{Particle Count})$

$\log_{10}(\text{Area})$  (square microns)

## Calibration Edge Analysis 12 – Samples: Cumulative Particle Area Distribution

Red: Sample 31, Blue: Sample 32, Green: Sample 33, Purple: Sample 34, Orange: Sample 35

### 8.5 Trial 13

#### Surface Analysis 13: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Purple: Calibration Surface, Green: Witness Surface

#### Surface Analysis 13: Binned Particle Size Distribution over 0.1 square meters

Orange: Starshade Surface, Purple: Calibration Surface, Green: Witness Surface

### Edge Analysis 13: Cumulative Particle Area Distribution over 0.1 meter

Pink: Starshade Observed, Blue: Calibration Observed, Green: Model,  
Orange: SLSM Starshade, Purple: SLSM Calibration, Red: SLSM Witness

### Edge Analysis 13: Binned Particle Area Distribution over 0.1 meter

Pink: Starshade Observed, Blue: Calibration Observed, Green: Model,  
Orange: SLSM Starshade, Purple: SLSM Calibration, Red: SLSM Witness

### face Analysis 13 – Samples : Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

### poration Analysis 13 – Sample: Cumulative Particle Area Distribution over 0.1 square

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

### Surface Analysis 13 – Samples : Cumulative Particle Area Distribution over 0.1 square meter

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

### Surface Analysis 13: Cumulative Particle Area Distribution over 0.1 square meter

Orange: Starshade Surface, Purple: Calibration Surface, Green: Witness Surface

### Surface Analysis 13: Binned Particle Size Distribution over 0.1 square meters

Orange: Starshade Surface, Purple: Calibration Surface, Green: Witness Surface

### Edge Analysis 13: Cumulative Particle Area Distribution over 0.1 meter

Pink: Starshade Observed, Blue: Calibration Observed, Green: Model,  
Orange: SLSM Starshade, Purple: SLSM Calibration, Red: SLSM Witness

### Edge Analysis 13: Binned Particle Area Distribution over 0.1 meter

Pink: Starshade Observed, Blue: Calibration Observed, Green: Model,  
Orange: SLSM Starshade, Purple: SLSM Calibration, Red: SLSM Witness

### Surface Analysis 13 – Samples: Cumulative Particle Area Distribution

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

### Calibration Analysis 13 – Sample: Cumulative Particle Area Distribution

Red: Sample 1, Blue: Sample 2, Green: Sample 3, Purple: Sample 4, Orange: Sample 5

### All Surface Analysis 13 – Samples: Cumulative Particle Area Distribution

Solid: Starshade Samples, Dotted: Calibration Samples, Dashed: Witness Sample  
Colors: Red (1), Blue (2), Green (3), Purple (4), Orange (5)

## 9. Combined Analysis and Comparison

### 9.1 Cumulative Comparison

#### Marshade Surface Analysis: Cumulative Particle Area Distribution over 0.1 square m

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12, Purple: Trial 13

#### Witness Surface Analysis: Cumulative Particle Area Distribution over 0.1 square m

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12, Purple: Trial 13

### Starshade Edge Analysis: Cumulative Particle Area Distribution over 0.1 meter

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12, Purple: Trial 13

### Calibration Edge Analysis: Cumulative Particle Area Distribution over 0.1 meter

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12, Purple: Trial 13

## Model Edge Analysis: Cumulative Particle Area Distribution over 0.1 meter

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12, Purple: Trial 13

## SLSM Starshade Edge Analysis: Cumulative Particle Area Distribution over 0.1 m

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12, Purple: Trial 13

# SLSM Witness Edge Analysis: Cumulative Particle Area Distribution over 0.1 me

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12, Purple: Trial 13

## 9.2 Binned Comparison

### Starshade Surface Analysis: Binned Particle Area Distribution over 0.1 square meter

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12

### Witness Surface Analysis: Binned Particle Area Distribution over 0.1 square meter

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12

### Starshade Edge Analysis: Binned Particle Area Distribution over 0.1 meter

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12

### Calibration Edge Analysis: Binned Particle Area Distribution over 0.1 meter

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12

### Model Edge Analysis: Binned Particle Area Distribution over 0.1 meter

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12

### SLSM Starshade Edge Analysis: Binned Particle Area Distribution over 0.1 met

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12

## SLSM Witness Edge Analysis: Binned Particle Area Distribution over 0.1 mete

Pink: Trial 9, Blue: Trial 10, Green: Trial 11, Orange: Trial 12

### 10. Multiple Line analysis

### 11. Statistical Analysis

#### 11.1 Trial 9

#### 11.2 Trial 10

#### 11.3 Trial 11

#### 11.4 Trial 12

#### 11.5 Cumulative Combined

#### 11.6 Multiple Line

### 12. Paper Comparisons
